

AZISEH BLESSING KIMASE

Registered Nurse | Medical Virtual Assistant | Healthcare Operations Support

Cameroon, Available for Remote Global and US Based Roles | azisehblessingkimase@gmail.com | [linkedin.com/in/aziseh-blessing-kimase](https://www.linkedin.com/in/aziseh-blessing-kimase) | www.azisehblessing.com

PROFESSIONAL SUMMARY

Registered Nurse and certified Medical Virtual Assistant combining two years of hands on clinical care with structured practicum training in patient scheduling, insurance verification, referral coordination, telehealth support, and clinical documentation. Trained through a full simulation caseload covering intake to discharge workflows for a fictional multi provider practice, converting unstructured provider notes into chart ready SOAP and DAP documentation and building complete referral and prior authorization packets from informal requests. HIPAA trained and comfortable working independently across EHR, telehealth, and CRM platforms to reduce administrative load for healthcare practices.

CORE COMPETENCIES

- Patient Scheduling and Calendar Management
- New Patient Intake and Registration Workflows
- Insurance Verification and Eligibility Checks
- Prior Authorization, Referral Coordination, and SOAP/DAP Documentation
- Telehealth Visit Coordination and HIPAA Compliance
- EHR Systems: SimplePractice, DrChrono, OptiMantra, TherapyNotes
- Telehealth Platforms: Zoom for Healthcare, Doxy.me | CRM Tools: HubSpot, Trello, Notion
- Patient Communication, Inbox Management, and Provider Follow Up

PROFESSIONAL EXPERIENCE

Medical Virtual Assistant, Practicum Training | ATA Academy | 2026

- Converted six unstructured provider dictations and handwritten notes into fully formatted SOAP and DAP notes, reducing documentation time for the reviewing provider by standardizing entries into a consistent chart ready format.
- Built a seven step new patient registration workflow and a six step prior authorization workflow, each tested against a fictional case, cutting the steps needed to move a patient from initial contact to confirmed appointment from an unstructured process to a repeatable one.
- Converted three informal provider requests into complete, submittable referral packets with full authorization tracking, and designed a three phase telehealth coordination workflow using Zoom for Healthcare covering pre visit, live visit, and post visit follow up.

Registered Nurse | Clinical Practice | July 2024 to May 2026

- Delivered direct patient care and maintained HIPAA compliant documentation across a high volume clinical caseload, coordinating with multidisciplinary teams to keep care plans current and accurate.
- Managed real time care coordination under pressure, translating physician instructions into clear next steps for patients and families during time sensitive situations.

Secretary and Virtual Operations Support | HomeClinic | February 2024 to Present

- Manage scheduling, inbox correspondence, and document organization for a home based primary healthcare service, keeping provider calendars and patient communications aligned across a distributed team without direct daily supervision.

LEADERSHIP

Founder and Executive Director | RisingRoots Africa | 2024 to Present

- Built a peer led mental and emotional health organization from the ground up, reaching over 320 young people across Cameroon through a structured five stage support model and working partnerships with licensed therapists.

EDUCATION AND CERTIFICATIONS

- Medical Virtual Assistant Certification, ATA Academy, Completed July 27, 2026
- HIPAA Compliance Certification, Completed 2026
- Registered Nurse License, Available on Request
